Ellie Foote

Full Stack Developer | elliefoote.com | +34 634 707 464 |

Self-directed and highly curious developer and life-long learner making a career shift into tech, building on 8 years' experience in editing, training and policy.

Experience

Full Stack Developer, Jan 2022 – Present

CodeOp, Barcelona

- Full-time bootcamp covering **modern full stack** technologies
- Completed two individual projects and one team project using **Agile** (see PROJECTS).
- Took on additional responsibilities such as maintaining the team Trello board to **coordinate tasks**.
- Completed extracurricular activities, including contributing to Public Lab, an **open source** project, and **building a static site** for a freelance client

English Trainer and Editor, Jan 2019 – Dec 2021

Self-Employed, Remote

- Helped **more than 200 students** to achieve their learning goals, including passing English exams and entering English-speaking universities
- Consistently received **highly positive feedback** on edits of business and academic documents (average of 4.83/5), leading to many repeat clients

Senior Policy Adviser, Aug 2016 – Dec 2018

Victorian Government, Australia

- Contributed to the **development of state-wide laws** and policies by providing clear written and oral advice to senior executives

Mentoring, communication, project management

Languages

English (native speaker)

Spanish (advanced)

Education

University of Queensland

Bachelor of Arts/Bachelor of Laws (Hons I)
2009-2014

Projects

Homegrown Bcn (group project) | *React.js, Node.js, Express.js, Bootstrap, HTML/CSS*
- Full stack ecommerce app that allows socially conscious shoppers to connect with local artists
- Shoppers can browse products, add items to their cart (leveraging a MySQL database) and pay securely using the Stripe API. Sellers can fulfill orders using data pushed by a Stripe webhook.

EManager (feature extension) | *React.js, Node.js, Express.js, Bootstrap, HTML/CSS*
- Full stack CRM app that allows small business owners to manage clients and allocate tasks
- Users can securely create accounts and log in to the app using jsonwebtoken and bcrypt

BookSwapper (individual MVP project) | *React.js, Node.js, Express.js, Bootstrap, HTML/CSS*
- Full stack app that allows users to list their pre-loved books and arrange swaps with other users
- Users can automatically generate cover images through an integration with Google Books API
